## Section B. SUMMARY OF THE CURRICULUM

I received my Ph.D. in Economic Analysis and Business Strategy from the University of Santiago de Compostela (USC) and my Master Degree in Agrifood Marketing from the Mediterranean Agronomic Institute of Zaragoza (IAMZ). Since October 1, 2017 I started working as a post-doc researcher at the Centre for Research in Economics and Agribusiness Development (CREDA-UPC-IRTA). Currently, I am collaborating intensively in different national and international (H2020) research projects led by the CREDA-UPC-IRTA. My field of interest is consumer behaviour research related to food, nutrition, health, transport and environment. I have extensive experience in consumer's preferences valuation based on stated and revealed preference methods. Moreover, I was involved in teaching tasks in Bachelor degrees at the Polytechnic University of Catalonia (2017/2018) and the University of Santiago de Compostela (2013/2014 and 2014/2015).
